Statement of Qualifications:

Candidate Name: Justin Graham

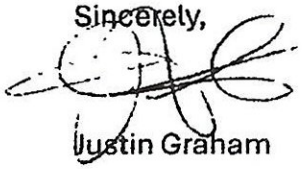
Target Seat: Altadena Town Council, 4610 census tract

I am writing formally to express my candidacy for the Altadena Town Council. My wife and I purchased a home in Altadena in November of 2015, and we have two beautiful sons that attend the Mary Jackson STEM Dual Language Magnet Academy Elementary School; they are active participants in both AYSO and Central Altadena Little League. I am committed to preserving our community's unique character while advocating for equitable representation for all residents in our census tract.

I have worked in education as guidance counselor and high school college counselor for 20 years; I also serve as a private counselor advisor. My daily work is building relationships with students and parents as it relates to their post-secondary endeavors; ensuring students are adhering to the various college requirements, and I've provided presentations to our constituents. I bring experience in the realm of community services and effective communications with community members in a professional capability. I respectfully request your vote and support to help keep Altadena a beautiful place to live.

Altadena is a tight-knit community, and it would be an honor to service and dedicate my time and skills to its governance.

Sincerely,



Justin Graham
