Nic Arnzen, CT 4602

I have spent three terms on the Altadena Town Council, and I still find great joy and satisfaction working to ensure our community voices are heard. I came to the Council with an eagerness to help support our incredible town and build on the great work that had been done by so many wonderful residents before me. I saw the need to improve communications but quickly realized what a huge task that was. So, I established the Council's first Communication Committee where I began the high school internship program, created and sent out hundreds of new neighbor welcome packs, pushed for a website revamp, increased our presence at community events, and highly encouraged the Council's support of local organizations and each other.
These past two years have been incredibly challenging, heartbreaking, and defining for our community. Our work is far from done.

As Chair this past year I have sought to keep us united in our mission to do what is best for our community. I have great respect for individual opinions and perspectives and believe that a wide view and open minds are necessary to keep us on track. I am extremely proud of how we as a Council have been communicating both privately and publicly- supporting viewpoints we don't always agree with and patiently listening in hopes of expanding our own.

I not only desire to run for another two-year term but I hope to continue my work as Chair and keep us focused on helping this community heal through connection and earned trust.
