Angelika Erhard - Statement of qualifications:

I've been a volunteer all my life!

At home as the oldest I was the volunteer hedge trimmer and babysitter of younger siblings.

I counted 40 organizations that I volunteered for when my child was young.

Most recently I have been "volunteering" for the Altadena community as the de facto garbage (recycling) picker-upper off the streets and weed abatement. Especially spurge and puncture vine ie Goat Head!

My bike has seen the sharp thorns of that boisterous puncture vine too much in Altadena in the last 6 years.

I finally gave Charles Carter at the Loma Alta Park notice that I am quitting this job.

More to the past, I'm a trained electrical engineer with 10 year's experience.

I was the assistant to John Hopkins at the Oh Happy Day Grocery and Cafe for 16 years. Some would even call that volunteering since $400/month is hardly a living wage these days.

I hope to bring "millet" , my pet project for the last 4 years, at the cafe to greater Altadena.
I promise to have Millet Waffles available at all Town Council meetings. Such as "Millet Tasting" held all over India to rejuvenate interest in the ancient grain that is not acidic in the body but alkaline and healthy for diabetics.

We need to become as resilient as millet to survive and thrive in the future in Altadena. It takes the least amount of water and fertility to grow.

Other projects as they develop!

Thank you for your consideration.
